Education

Sahyadri College of Engineering and Management

Bachelor of Engineering in Computer Science

Dec 2021 – Jun 2025

Mangalore, Karnataka

Experience

Niveus Solutions

Technical Intern

Nov 2023 – Feb 2024

Mangalore, Karnataka

- Worked on a **Next.js**, **PostgreSQL**, and **Express.js** full stack project for Niveus internal purpose.
- Deployed the application on Google Cloud using **Artifact Registry**, **Cloud Run**.
- Explored **DevOps** and **Google Cloud Services** to broaden expertise.

The Startuppreneur

Full Stack Developer Intern

Sep 2022 – Jan 2023

Remote

- Actively engaged in project meetings to address challenges and refine **teamwork and coordination**.
- Utilized collaboration tools like Notion, Slack, and Figma to improve efficiency and team communication.
- Worked on **user-friendly and responsive UIs**, gaining hands-on experience and expanding skills in web development.

Projects

Sankalp | *Next.js, TypeScript, TailwindCSS*

October 2023

- Developed the frontend for Sankalp, successfully facilitating registration for **1100+ users** in an event by SOSC.
- Worked on user registration, dashboard, and event enrollment, ensuring a seamless and comprehensive user experience.
- Implemented admin panel for **user management** and **registration monitoring**, enhancing organizational efficiency.

Tiles | *Next.js, TypeScript, Express.js, MongoDB, Sockets*

September 2023

- Built a **real-time collaboration platform**, enabling users to interact on a shared canvas.
- Implemented a secure **user authentication** system, including **guest login** functionality with over **250+ logins**.
- Elevated user experience with minimalist user interface, diverse color palette, and real-time collaborative updates.

Rudraksh | *Next.js, TailwindCSS, APIs*

August 2023

- Built a **responsive web platform** for farmers to identify plant diseases, by uploading the image of the plant.
- Integrated machine learning API for disease detection, treatment recommendations, and prevention measures.
- Secured **2nd place** in inter-district **competition by IEEE**, and showcased the project among **400+ students**.

Technical Skills

Languages: C, HTML, CSS, JavaScript, TypeScript

Developer Tools: VS Code, Git, Postman, Docker, Google Compute Engine, Cloud Run, Artifact Registry

Technologies/Frameworks: React.js, Next.js, Node.js, Express.js, MongoDB, TailwindCSS, Linux

Organizations

President - Sahyadri Open Source Community

Jun 2023 – present

- Leading a team of **25 members**, enhancing **technical and leadership skills**, and promoting **open-source**.
- Organized over **10 Workshops**, **6 Coding Events** and **2 Hackathons**.
- Collaborated with communities like **GDSC**, **IEEE**, **FOSS**, and **GDG Mangalore** to volunteer and host events.
- Conducted a **workshop on Git and GitHub**, and delivered a **talk on Asynchronous JavaScript**.

Postman Student Leader

Oct 2023 – present

- Actively promoting and advancing API literacy initiatives on campus.
- Successfully organized and conducted a **workshop on API basics** using Postman.

Achievements

Blockchain Track Winner Devhack 5.0

Developed a collaborative savings platform **Finvest - Pots**

February 2024

IIT - Dharwad

1st Place Roolathon

Proposed solution for financial education for underserved people using **Finvest**

December 2023

GDSC - SIT

2nd Place API Literacy

Built **Rudraksh** to identify plant diseases, enhancing crop health manage

August 2023

IEEE Mangalore Subsection
